

Ability Commerce Earns Certified for Microsoft Dynamics Accreditation - Ability Financials™ Has Met Microsoft's Highest Standard for Partner-Developed Software Solutions.

FOR IMMEDIATE RELEASE

Delray Beach, FL – March 26, 2009 – Ability Commerce announced today that its Ability Financials accounting integration software is now Certified for Microsoft Dynamics, which signifies that the solution has met Microsoft Corp.'s highest standard for partner-developed software. By successfully meeting all certification requirements, Ability Commerce can now carry the distinct Certified for Microsoft Dynamics logo.

Solutions that are Certified for Microsoft Dynamics have demonstrated development quality and compatibility with the Microsoft Dynamics product on which it runs by passing rigorous VeriTest software solution testing for Microsoft Dynamics and are profiled in the Microsoft Partner Solution Profiler tool. In addition, the Microsoft Dynamics partner must have customers who are successfully using the certified solution and are willing to recommend it, be enrolled in a Partner Service Plan with Microsoft, and be a Gold Certified Partner in the Microsoft Partner Program.

For customers, Certified for Microsoft Dynamics helps identify Microsoft Dynamics solutions that have been tested for compatibility, meet high quality standards, and are successfully used by existing customers. This certification represents a significant step in elevating the standard for partner-developed software solutions for industry-specific business applications. By highlighting these solutions, Microsoft also creates new opportunities for partners to expand their reseller channel and to better promote their packaged Microsoft Dynamics solution for customers.

“By requiring both the software solution and the partner to meet our highest standards, Microsoft is assuring customers that these certified solutions work with their investments in Microsoft Dynamics,” said Doug Kennedy, vice president, Microsoft Dynamics Partners. “Microsoft congratulates Ability Commerce on achieving the Certified for Microsoft Dynamics status for Ability Financials by demonstrating its success and commitment in delivering a leading Microsoft Dynamics solution.”

Ability Financials is the only Microsoft Dynamics GP - certified integration software specifically designed to meet the specific reporting needs of multi-channel retailers. This out-of-the-box accounting integration software automatically interfaces data from an existing order management system with Microsoft Dynamics GP. It updates Microsoft Dynamics GP General Ledger, Payables Management, and Bank Reconciliation modules directly from order management system data files to eliminate errors and manual data entry.

“Ability Commerce has always been committed to software excellence, and achieving the Certified for Microsoft Dynamics designation for Ability Financials is a reflection of that commitment,” said Paula Smith, Microsoft Dynamics GP and Ability Financial Specialist.

About Microsoft Dynamics

Microsoft Dynamics is a line of financial, customer-relationship and supply-chain management solutions that helps businesses work more effectively. Delivered through a network of channel partners providing specialized services, these integrated, adaptable business management solutions work like and with familiar Microsoft software to streamline processes across an entire business.

About Ability Commerce:

Ability Commerce is an ecommerce solutions provider that offers ecommerce software, Microsoft Dynamics GP support and accounting integration software. Ability Commerce is a Microsoft Gold Certified partner that has achieved the Microsoft Business Solutions competency (in Microsoft Dynamics GP) and the Independent Software Vendor (ISV) competency. Ability Commerce has developed the only Microsoft-certified financial system integration software for direct-marketing companies using a separate Order Management System.
