

For Immediate Release

Designers Surplus Signs with Ability Commerce to Implement Ability Financials™ and Microsoft Dynamics GP™

Delray Beach, FL, August 14, 2008 – Designers Surplus officially signed with Ability Commerce to implement Ability Financials and Microsoft Dynamics GP (formerly Great Plains.)

Ability Commerce will assist Designers Surplus in implementing their Microsoft Dynamics GP financial system from scratch, including installation, configuration, consulting, training, product management, and on-going support. When complete, Designers Surplus will have a fully-functioning financial and accounting system that will aid them in maintaining vendor relationships, financial reporting, analysis, compliancy, and streamlining cash-flow management.

Additionally, Ability Commerce will provide full integration between Microsoft Dynamics GP and Designer's Surplus's new order management system through Ability Financials accounting integration software. Designers Surplus is currently implementing Escalate Retail's Ecometry order management system.

The Ability Financials integration will mean fewer data entry errors, more efficient operations and timely reporting of financial information.

About Designers Surplus:

Designers Surplus specializes in selling overstock and surplus high-end bath vanities, designer kitchen cabinets, faucets, fixtures, sinks, and related items in retail stores and soon on the web. They have retail locations in Miami, Florida; Boston, Massachusetts; Atlanta, Georgia; and Denver, Colorado. They are scheduled to open an additional store in California this year.

About Ability Commerce:

Ability Commerce is an ecommerce solutions provider that offers ecommerce software, Microsoft Dynamics GP support and accounting integration software. Ability Commerce is a Microsoft Gold Certified partner that has achieved the Microsoft Business Solutions competency (in Microsoft Dynamics GP) and the Independent Software Vendor (ISV) competency. Ability Commerce is an innovator in the ecommerce software industry, using the 20-plus year history of their parent company, Marketing Concepts, to meet the specific needs of multi-channel merchants.
