Year Launched: 1999

Ability Commerce is a provider of e-commerce platforms that specializes in order management and financial software. The vendor sells contact center, technical, merchandising, marketing, graphic design and integration services. Ability offers marketplace help by way of store setup, product maintenance, customer service and vendor relationship management. The company's marketplace management tools facilitate the information flowing between a retailer and Amazon.com Inc., for example, when an order is placed. Retailers can use Ability to handle daily business operations—from sourcing inventory to depositing funds from completed orders. The e-commerce platform includes advanced site search and filter functionality, mobile optimization, secure and advanced cart and checkout features, and customizable ratings and reviews. Search engine optimization features the easy creation of meta and header tags, search engine-friendly URLs, an auto-generated site map, and site architecture and taxonomy.
